

Make your boat your home away from land

Technical specifications

Models 12V diesel fired, 24V diesel fired, 24V kerosene fired (available on request)

Engine 4 Cylinder double acting Stirling cycle

Outputs Electrical: modulated up to 800W. Thermal: modulated up to 5.5kW (19,000 Btu/h) via sealed liquid circulation

Noise Level 43dBA at 7m (23')

Fuel Automotive grade diesel - consumption 0.75L/h (1/8 US gal/h) at max output

Battery Charging Automatic 3 stage

Enclosure Free standing 2 piece moulded fibreglass IP 54 rated. All service connections are to the back of the enclosure

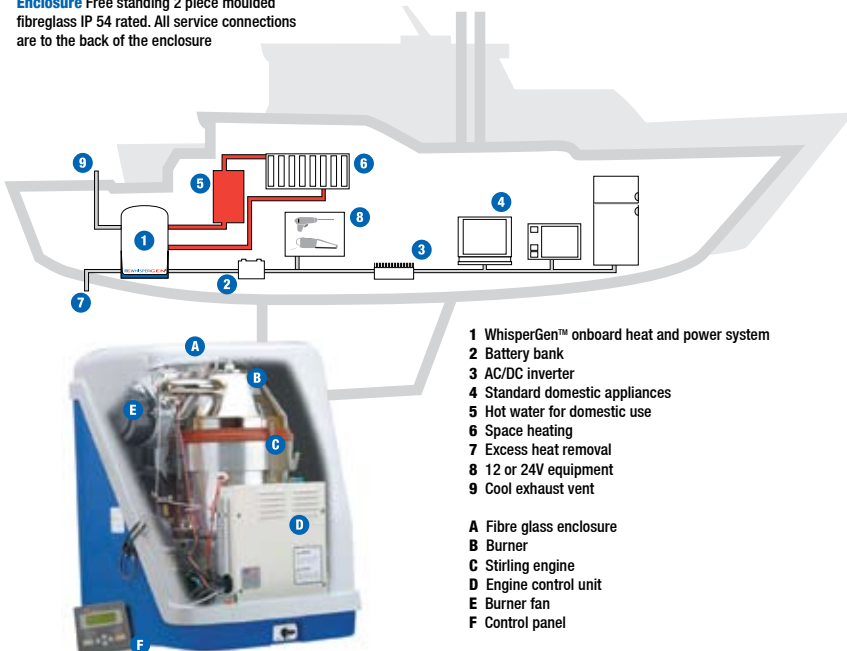

Heat Exchanger
Titanium plate marine heat exchanger

Dimensions (w x d x h) 450mm x 500mm x 650mm (17 1/2" x 19 3/4" x 25 1/2")

Dry Weight 90kg (198lb)

Environment Ambient: -10°C to 40°C (14°F to 104°F)
Humidity: 0% to 99% non-condensing.

Warranty Comprehensive core engine and component warranty available. Contact your WhisperGen™ regional distributor for details.

- 1 WhisperGen™ onboard heat and power system
 - 2 Battery bank
 - 3 AC/DC inverter
 - 4 Standard domestic appliances
 - 5 Hot water for domestic use
 - 6 Space heating
 - 7 Excess heat removal
 - 8 12 or 24V equipment
 - 9 Cool exhaust vent
-
- A Fibre glass enclosure
 - B Burner
 - C Stirling engine
 - D Engine control unit
 - E Burner fan
 - F Control panel

you can relax, it's a

WhisperGen™ onboard heat and power system

WhisperGen™ is a fully automated 12 or 24V diesel-powered marine generator. It gives you an on demand supply of heat for the cabin plus hot water and the power to run all those things that make life onboard safe and comfortable.

Smaller, lighter and significantly quieter than traditional generators, the WhisperGen™ onboard heat and power system is your silent, diligent first mate. It monitors battery charge and heat levels, utilising a built-in self-diagnostic system so that you can set it then forget it.

WhisperGen™ is efficient; 90% of the energy of the fuel used is converted into usable power or heat. It also helps to keep the sea "green" with emissions clean enough to be exhausted above the water line.

All this plus superb design and robust construction, so you can just relax and enjoy the comforts of home away from land with the WhisperGen onboard heat and power system.
